

# VIII SILPS NATIONAL CONGRESS

ROME, 23-24 SEPTEMBER 2011

"SAPIENZA" UNIVERSITY OF ROME - DEPARTMENT OF ODONTOSTOMATOLOGICAL SCIENCES

SOCIETÀ ITALIANA PER LO STUDIO E LA CURA DELLE LABIOPALATOSCHISI  
E MALFORMAZIONI CRANIO-MAXILLO-FACCIALI

## Dear Colleagues,

It was with great pleasure that I accepted the chairmanship of the Italian Society for the treatment of Cleft Lip and Palate and Cranio Facial Anomalies, and the task of organizing the Congress to be held in Rome on the 23rd-24th of September 2011.

The Scientific Committee decided to deal with different extremely specific topics, entrusting qualified national and international speakers diverse talks on different topics regarding the treatment of craniofacial anomalies. This is the reason why it was decided to take on English as the official congress language.

Surgical treatment of cranio-facial malformations and in particular of cleft lip and palate is a social issue in many countries. Different protocols are applied, whilst enthusiastic research is undertaken in many different craniofacial centers.

We believe this Meeting might be an extraordinary opportunity to compare different protocols, which might help all specialists to exchange experiences, with the common objective of improving our own protocols in order to ensure the highest possible quality in our clinical results.

We have decided to devote all free papers to difficult clinical cases (case reports) in order to allow objective and constructive debate.

Finally, Rome in September seems to be the perfect site to combine historical knowledge and scientific knowledge in a unique international atmosphere.

We are all hoping to welcome you in Rome!

*Domenico Scopelliti, MD*  
President of the congress
